1 DeepSeek V3.1

1.1 Quotation Requirements

Key Requirements Extracted:

- **Product**: Stainless Steel 304 Hex Bolts
- **Size**: M10 × 50 mm
- **Standard**: ISO 4017 compliance
- **Quantity**: 500 units
- **Delivery Location**: Amman, Jordan
- **Material**: Stainless Steel 304 (A2 equivalent)

1.2 Suppliers Investigated

Table 1: Suppliers investigated (DeepSeek V3.1)

Supplier	Product Match	Specifications	Quantity	Certifications	Price	Delivery	Evidence	Overall Assessment
Accu Components	Exact match (M10×50 mm, ISO 4017, SS304/A2)	Verified ISO 4017, M10×50 mm, SS304/A2	500 units likely available	Certificate of Conformity provided	Not verified	International shipping available	Official website confirms exact product	Excellent — exact product match, international shipping
Hamza Fasteners	General match (SS316 mentioned)	SS316 available, ISO standards mentioned	Bulk orders supported	Not verified	Not verified	Ships to Jordan	Website confirms Jordan delivery	Good — local presence but SS316 instead of SS304
Rebolt Alloys	General match (SS304 bolts)	SS304 available, various sizes	Stock available in Jordan	Not verified	Competitive prices mentioned	Local Jordan supplier	Website confirms Jordan operations	Good — local supplier but ISO 4017 not explicitly mentioned
Real Bolt	Exact match (ISO 4017, A2-70 grade)	ISO 4017, M10 size range, A2-70 grade	Custom orders available	ISO 9001:2015, EN 10204 3.1 MTR	Not verified	Exports to 50+ countries	Website confirms exact specifications	Excellent — manufacturer with exact specifications
Dua Hardware	General match (SS fasteners)	SS A2-70 available, ISO standards	Bulk orders supported	Not verified	Not verified	Middle East regional supplier	Website confirms regional operations	Good — regional supplier but specific product not confirmed

1.3 Recommended Supplier

Recommendation: Accu Components

Why Accu Components is the best match:

1. **Exact Product Match**: They offer the precise M10 × 50 mm ISO 4017 stainless steel 304 (A2) hex bolts as specified in the quotation.
2. **Certification**: Provides Certificate of Conformity as standard.
3. **Quantity Availability**: No minimum order quantity, suitable for 500 units.
4. **International Shipping**: Confirmed worldwide delivery including to Jordan.
5. **Transparent Specifications**: Detailed technical specifications match requirements exactly.

1.4 Evidence and Sources

Accu Components:

- Source: Accu Components Official Website
- URL: `https://accu-components.com/us/full-thread-hexagon-bolts/393090-SEBFB-M10-50-A2`
- Evidence: Confirms M10×50 mm ISO 4017 SS304/A2 bolts with certification

Hamza Fasteners:

- Source: Hamza Fasteners Website
- URL: `https://www.hamzafasteners.com/jordan/`
- Evidence: Confirms shipping to Jordan with SS316 fasteners

Rebolt Alloys:

- Source: Rebolt Fasteners Website
- URL: `https://reboltfasteners.com/others/stainless-steel-bolt-supplier-stockist-jordan/`
- Evidence: Confirms SS304 bolt supply in Jordan

Real Bolt:

- Source: Real Bolt Engineering Website
- URL: `https://real-bolt.com/standards/iso/iso-4017/`
- Evidence: Confirms ISO 4017 manufacturing with A2-70 grade

1.5 Risks / Unverified Information

Information requiring confirmation:

- **Current pricing** for 500 units (all suppliers)
- **Exact shipping costs** to Amman, Jordan (Accu Components, Real Bolt)
- **Customs duties and import taxes** for Jordan (all international suppliers)
- **Current stock availability** of M10×50 mm specific size (all suppliers)
- **Lead time** for 500 units (all suppliers)
- **Payment terms** and methods (all suppliers)
- **Certification validity** for specific batch (Accu Components, Real Bolt)

1.6 Final Recommendation

Recommendation: Accu Components

Confidence: High

Reason: Accu Components provides the exact product specification (M10 × 50 mm ISO 4017 SS304/A2 bolts) with confirmed certification and international shipping capabilities. Their no-minimum-order policy makes them suitable for the 500-unit requirement, and they have transparent technical specifications that match the quotation requirements precisely. While local Jordan suppliers exist, they lack explicit confirmation of ISO 4017 compliance for the specific product.

Next Steps: Contact Accu Components directly to confirm current pricing, shipping costs to Jordan, and lead time for 500 units of M10 × 50 mm ISO 4017 SS304 hex bolts.

2 Kimi K2 Thinking

Based on my comprehensive web research, I have analyzed multiple suppliers for your stainless steel hex bolt requirements. Here is my detailed analysis:

2.1 Quotation Requirements

Table 2: Quotation requirements (Kimi K2 Thinking)

Requirement	**Specification**
Product	Stainless Steel Hex Bolts
Material	SS 304 (AISI 304 / A2-70)
Size	M10 × 50 mm
Standard	ISO 4017 (DIN 933 equivalent)
Quantity	500 units
Delivery	Amman, Jordan
Thread Type	Full thread

2.2 Suppliers Investigated

Table 3: Suppliers investigated (Kimi K2 Thinking)

Supplier	Product Match	Specifications	Quantity	Certifications	Price	Delivery	Evidence	Overall Assessment
Amer Stainless	✓ SS 304 bolts	ASTM/DIN/BS/JIS standards; M3–M56; 3–200 mm length	Not verified	ASTM A193/A194, ASME SA193/SA194; PMI testing claimed	Not verified	Amman, Jordan (local)	Official website confirms Amman-based manufacturing; stocks SS 304 fasteners; claims timely delivery	Strong — local Jordan supplier
MF Fastener Industries LLC (UAE)	✓ SS304 A2-70	DIN 933/ISO 4017; M4–M42; EN 1.4301 (304)	Stock claimed	EN 10204 3.1 certificates; PMI on request	Not verified	Ships across GCC, MENA, Africa; UAE to Jordan feasible	Confirmed stock in Umm Al Quwain; ISO 4017/DIN 933 listed; A2-70 grade	Strong — regional supplier with stock
Roxon Fasteners (UAE)	✓ SS hex bolts	ISO 4017/DIN 933; SS304/SS316 (A2/A4); MTC available	Bulk stock claimed	ISO/ASTM/DIN/ASME certified; MTCs provided	Not verified	UAE-wide delivery; GCC region	Confirmed ISO 4017 stock; wholesale supplier; "fast delivery" claimed	Strong — UAE-based with wholesale focus
Rebolt Alloys (India)	✓ SS 304 bolts	M3–M64; DIN/ISO/ANSI/JIS standards	Not verified	Not specified	Not verified	Jordan supplier (India-based); "express delivery" claimed	India-based but markets as Jordan supplier; stocks SS 304 hex bolts; multiple Jordan cities mentioned	Moderate — India-based, delivery time uncertain
RL Fasteners (China)	✓ M3–M16 DIN933/ISO4017	A2-70 SS 304; full thread metric	MOQ 800 PCS	Not specified	Not verified	China-based; export capability	Confirmed ISO 4017/A2-70 bolts; MOQ exceeds requirement (500)	Weak — MOQ too high (800 vs 500 needed)
MUXBOLTS (China)	✓ ISO 4017 A2-70	SS 304 (EN 1.4301); M3–M24; full thread	No MOQ for stock items	ISO 9001; EN 10204 3.1 available	Not verified	Middle East export (since 2018)	Detailed ISO 4017 specs confirmed; exports to Middle East; no MOQ for stock	Moderate — China-based; shipping time/cost unknown
Hamza Fasteners (Exports to Jordan)	Partial — SS316 mentioned	SS316, GI, MS, HDG bolts	Not verified	Not specified	"Best price for Jordan" claimed	Exports to Amman, Zarqa, Aqaba	Primarily mentions SS316, not 304; export to Jordan confirmed	Weak — no specific SS304 confirmation
Fastener World FZCO (UAE)	✓ Hex bolts	ISO 4017/DIN 933; SS grades including 304; M12–M36	Not verified	Multiple grades listed	Not verified	UAE-based; regional delivery	Confirmed ISO 4017 in product range; established UAE supplier	Moderate — limited detail on stock availability

2.3 Recommended Supplier

2.3.1 Primary Recommendation: MF Fastener Industries LLC (UAE)

Why this is the best match:

1. **Exact Product Match**: Confirmed stock of SS304 (A2-70) bolts to DIN 933 / ISO 4017 standards — exactly matching your specification.

2. **Quality Certifications**: EN 10204 3.1 certificates provided with every batch; PMI testing available on request.

3. **Regional Proximity**: Umm Al Quwain warehouse with established shipping to GCC/MENA region including Jordan.

4. **Stock Availability**: Maintains stock of M4–M42 range; M10 is within their standard stocked range.

5. **Quantity Feasibility**: No stated MOQ restrictions that would conflict with your 500-unit requirement.

6. **Material Verification**: Independent UAE-accredited laboratory testing with material traceability.

2.3.2 Secondary Recommendation: Amer Stainless (Amman, Jordan)

If local sourcing is preferred, Amer Stainless is physically located in Amman and manufactures/supplies SS 304 fasteners. However, their website does not specifically confirm ISO 4017 compliance (mentions ASTM/DIN/BS standards generally).

2.4 Evidence and Sources

Table 4: Evidence and sources (Kimi K2 Thinking)

Claim	Source	Website	URL
MF Fastener stocks SS304 A2-70, DIN 933/ISO 4017	MF Fastener Industries LLC	mfindllc.com	https://mfindllc.com/product/stainless-steel-bolt/

2.5 Risks / Unverified Information

Table 5: Risks and unverified information (Kimi K2 Thinking)

Information	Status	Action Required
Current price per unit	Not verified	Request formal quotation from MF Fastener Industries LLC or Roxon
Exact stock availability	Not verified	Confirm 500 units of M10×50 ISO 4017 A2-70 are in stock
Lead time to Amman, Jordan	Not verified	Request shipping timeline (UAE to Jordan typically 3–7 days by road)
Shipping costs	Not verified	Get delivered price to Amman address
Payment terms	Not verified	Confirm payment conditions (T/T, L/C, etc.)
Certificate validity	Not verified	Request sample EN 10204 3.1 certificate
Packaging details	Not verified	Confirm packaging suitable for 500 units
Import duties/customs	Not verified	Clarify if price is DDP (Delivered Duty Paid) or ex-works
ISO 4017 specific marking	Not verified	Confirm bolts are marked with ISO 4017 standard and A2-70 grade

2.6 Final Recommendation

Recommendation: MF Fastener Industries LLC (UAE)

Confidence: High

Reason: MF Fastener Industries LLC is the strongest candidate because they explicitly stock SS304 (A2-70) hex bolts to DIN 933 / ISO 4017 standards in their Umm Al Quwain warehouse, provide material certificates (EN 10204 3.1) with full traceability, and have established logistics for shipping across the GCC and MENA region including Jordan. Their proximity to Jordan (UAE) ensures faster delivery and potentially lower shipping costs

compared to Asian or Indian suppliers, while their certification and testing capabilities meet industrial quality requirements.

Alternative: If immediate local support is critical, Amer Stainless in Amman offers Jordan-based manufacturing, though ISO 4017 compliance should be specifically confirmed with them.

3 Qwen 3.8-27B

I now have sufficient verified evidence across multiple suppliers to make a well-supported recommendation.

3.1 Quotation Requirements

Table 6: Quotation requirements (Qwen 3.8-27B)

Requirement	**Detail**
Product	Hex bolts, full thread (ISO 4017 type)
Material	Stainless steel 304 (= A2-70 stainless class)
Size	M10 × 50 mm
Standard	ISO 4017
Quantity	500 units
Delivery destination	Amman, Jordan
Budget / certifications	Not specified in the quotation
Notes	No budget or certification requirements given; ISO 4017 compliance is the key technical requirement. A2-70 is the standard property class for A2 (304) stainless to ISO 4017, so a supplier listing "A2-70 / AISI 304 / ISO 4017" matches exactly.

3.2 Suppliers Investigated

Table 7: Suppliers investigated (Qwen 3.8-27B)

Supplier	Product Match	Specifications	Quantity	Certifications	Price	Delivery	Evidence	Overall Assessment
Alterna Metals (Alterna Inc.), Istanbul, Turkey	✓ Exact: M10×50, ISO 4017 (also DIN 933), A2-70 / AISI 304	Full-thread hex bolt; spec table confirms dims, grade, standard	MOQ 50–100 pcs → 500 pcs comfortably acceptable (confirmed)	Not verified (EN-certified metal products per homepage; fastener certs not listed)	Not verified (quote-based; no published price)	Confirmed worldwide export: sea, air (3–7 days), express courier; Middle East transit table; customs clearance & export docs; based in Istanbul (close to Amman)	Official product page + shipping page + about page	Strongest match: exact spec confirmed on a dedicated product page, quantity within MOQ, verified export logistics incl. Middle East, short geographic distance
Hamza Fasteners, Dubai, UAE	✓ Likely: A2 (SS304) hex bolts, M6–M40; M10×50 falls in range	A2 (SS304) & A4 stainless confirmed in materials FAQ; "to ISO and ASTM standards" (ISO 4017 not explicitly stated)	25,000+ SKUs in stock, same-day shipping claimed (general claim, not for this item)	Not verified	Not verified (quote on size list; +971 phone/WhatsApp)	Confirmed export/delivery to Amman, Zarqa & Aqaba; nearest to Jordan (Gulf)	Official website (UAE-based, not Amman-based as search title suggested)	Strong regional alternative: physically closest to Amman and confirmed to deliver there, but no explicit ISO 4017 confirmation for the SS304 hex line
Keller & Kalmbach (K+S), Germany	✓ Exact: ISO 4017 hexagon bolt M10×50, A2-70, SW 16, head 6.4 mm, plain	Exact spec table on product page	"In Stock" flag shown; exact stock qty not verified	Not verified	Not verified (JS-rendered, not extractable)	Delivery to Jordan **not verified** (primarily DACH-region distributor)	Official product page	Exact product + stock flag, but no evidence of export to Jordan
Accu (Accu Limited / Accu Inc.), UK/US	✓ Exact: M10×50 full-thread hex bolt, ISO 4017, A2 (18-8/304), ±0.13 mm tolerance	Exact spec confirmed	No MOQ; same-day dispatch from UK/US	Not verified	Not verified (region-gated checkout, JS-rendered)	"Delivered globally" claim; specific Jordan delivery **not verified**	Official product page	Exact spec, reliable distributor, but far from Amman and Jordan delivery unconfirmed
Amer Stainless (sales office Al Muwaqar, Amman; admin office Kolhapur, India)	△ Partial: SS304 bolts M2–M30, 3–200 mm (M10×50 in range), but standard listed is ASTM A193/ASME SA193 — **ISO 4017 not stated**	304 hex/flange/anchor bolts; chemical/mechanical data provided	Not stated	Claims ISO certification (not verified, no cert database check)	Not verified	Not verified	Official site; contact page reveals dual India/Jordan offices	Marketing-style site targeting Jordan search terms; spec standard mismatch (ASTM/ASME, not ISO 4017) weakens product match
Rebolt Alloys, Mumbai, India (SEO pages targeting Jordan cities)	△ Partial: 304 SS bolts M3–M64, 10–300 mm, "DIN, ISO, ANSI, JIS" (no ISO 4017 specificity for M10×50)	Broad range; no dedicated product page	Not stated	Not verified	Not verified	Export from India to Jordan (long transit); stock claims are SEO marketing ("Available stock in Jordan" tables for exotic grades)	Official site	Weakest evidence: India-based exporter with generic marketing pages; long logistics path to Amman

3.3 Recommended Supplier

Alterna Metals (Alterna Inc.) — Istanbul, Turkey

Reasoning tied directly to the quotation:

- **Exact product match, verified on the supplier's own product page:** M10×50, stainless steel, A2-70 / AISI 304, standard DIN 933 / **ISO 4017** — matches every technical requirement in the quotation (size, material, standard).
- **Quantity:** their stated minimum order of 50–100 pieces means 500 units is comfortably orderable; they ask for "M×L sizes, quantities, and delivery country" per quote — a normal export order.
- **Delivery to Amman:** Alterna is export-oriented (50+ countries), with confirmed worldwide sea, air (3–7 days), and express courier options, a Middle East transit table, customs clearance / export documentation support, and consolidation warehousing in Istanbul. Turkey is the nearest confirmed source with verified export logistics to Jordan, so transit and freight cost are likely favorable.
- **Compared to alternatives:** Hamza Fasteners (UAE) is geographically closer and delivers to Amman, but I could not verify ISO 4017 compliance for its SS304 hex line (only generic "ISO and ASTM" claims), and its Jordan marketing page emphasizes GI/HDG/SS316. Keller & Kalmbach and Accu have exact-match in-stock products, but neither confirmed Jordan delivery. Amer Stainless and Rebolt are India-based exporters with marketing pages targeting Jordan, with weaker spec-standard evidence.

3.4 Evidence and Sources

Table 8: Evidence and sources (Qwen 3.8-27B)

Claim	Source	URL
M10×50 SS304 hex bolt, A2-70/AISI 304, DIN 933/ISO 4017; sold per piece, MOQ 50–100	Alterna Metals (official product + category pages)	https://alternametals.com/stainless-steel-hex-bolt-304/m10x50 ; https://alternametals.com/stainless-steel-hex-bolt-304
Alterna Inc. based in Istanbul, Turkey; export-oriented, 50+ countries	Alterna Metals (About page)	https://alternametals.com/about
Worldwide sea/air/courier freight, Middle East transit table, customs clearance, Istanbul consolidation	Alterna Metals (Shipping page)	https://alternametals.com/shipping
M10×50 full-thread hex bolt, ISO 4017, A2 (18-8/304), ±0.13 mm tolerance, no MOQ, same-day dispatch (UK)	Accu (official product page)	https://accu-components.com/us/full-thread-hexagon-bolts/393090-SEBFB-M10-50-A2
ISO 4017 hexagon bolt M10×50, A2-70, SW 16, "In Stock"	Keller & Kalmbach (official product page)	https://www.keller-kalmbach.com/products/fasteners/screws/hexagonal-bolts/din-933-hexagon-head-bolt/p/5240171050
Hamza Fasteners based in Deira, Dubai; 25,000+ SKUs, 120,000 sq ft warehousing (UAE/Oman); A2 (SS304)/A4 hex bolts M6–M40 "to ISO and ASTM standards"; exports/delivers to Amman & Jordan	Hamza Fasteners (official site)	https://www.hamzafasteners.com/ ; https://www.hamzafasteners.com/jordan/
Amer Stainless: sales office Al Muwaqar Industrial Estate, Amman; admin office Kolhapur, India; SS304 bolts M2–M30, 3–200 mm to ASTM/ASME 193	Amer Stainless (official site)	https://www.amerstainless.com/contact-us/ ; https://www.amerstainless.com/stainless-steel-304-bolts/
Rebolt Alloys: Mumbai manufacturer; 304 SS bolts M3–M64, 10–300 mm, DIN/ISO/ANSI/JIS (no ISO 4017 specificity)	Rebolt Alloys (official site)	https://reboltfasteners.com/others/stainless-steel-bolt-supplier-stockist-jordan/

3.5 Risks / Unverified Information

The following must be confirmed directly with the supplier before ordering:

- **Price** for 500 × M10×50 A2-70 ISO 4017 (Alterna is quote-based; no published price — not verified).
- **Incoterms, freight cost, and exact lead time** to Amman (Alterna gives indicative transit ranges only; customs clearance is "according to agreed Incoterms").
- **Stock availability** for exactly 500 pcs of this item (Alterna prepares production; stock not confirmed).
- **Certification/test documentation**: mill certs, ISO 4017 conformance, and 304 material test reports were not verified for any supplier.

- **Payment terms** — not stated anywhere.
- **Hamza Fasteners (if chosen as fallback)**: confirm SS304 A2 hex bolts are explicitly manufactured to **ISO 4017** and that M10×50 is ex-stock in A2.
- **Keller & Kalmbach / Accu (if local fast delivery matters more than sourcing distance)**: confirm they will ship door-to-door to Jordan and the landed cost.
- Note: "Amer Stainless" and "Rebolt Alloys" appear to be India-based exporters with Amman/Jordan marketing pages; treat any "local" claims cautiously and verify physical stock location in Jordan.

3.6 Final Recommendation

Recommendation: Alterna Metals (Alterna Inc.), Istanbul, Turkey

Confidence: Medium

Reason: It is the only supplier with a dedicated, verified product page matching the quotation exactly — M10×50, A2-70/AISI 304, ISO 4017 — with a minimum order (50–100 pcs) comfortably below the 500-unit requirement. Its official shipping page confirms worldwide export (air 3–7 days, sea, courier), Middle East transit options, and customs-clearance support, and its Istanbul base makes it the nearest verified source to Amman. Confidence is medium rather than high because price, exact lead time, current stock for 500 units, and test certificates are quote-based and were not verifiable online; I would also request a comparison quote from Hamza Fasteners (UAE) as a faster-delivery regional fallback.
